

CABRILLANT 700

Product Summary

Features

- Panels from 10mm toughened float glass or 10.76 mm toughened and laminated glass
- Support legs for the 700 system are attached to the partition panel giving a floating appearance
- The Cabrillant frameless system is engineered to disperse stress with emphasis on the method of attaching the friction fit components to the glass, combined with high strength adhesives
- The 25 micron thickness anodised aluminium finish is ideal for use in wet areas
- Cubicles without doors have a small front pilaster to protect the divider panels and are available with PVC anti bacterial curtains
- Available in 16 standard colours. Non-standard colours available on request.

CABRILLANT 700
